

UNICITY **BALANCE**

Healthy Glucose Support

Delicious, patented fiber drink to support your health and weight loss goals

Why would I want to use it?

- ⑥ Maintains healthy glucose levels*
- ⑥ Calms down hunger during and between meals*
- ⑥ Helps achieve weight loss goals without stimulants*
- ⑥ Allows the body to burn your fat for energy*
- ⑥ Offsets carbohydrates you eat*
- ⑥ Sustains healthy cholesterol and triglycerides*
- ⑥ Promotes healthy digestive function*
- ⑥ Listed in the PDR (Physician's Desk Reference)

**These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.*

HOW DO I USE IT?

Mix one sachet of Balance with 8 -10 ounces of water

Shake vigorously until dissolved. Drink immediately

Wait 10-15 minutes before eating your meal

Drink before your two largest meals per day

To achieve your weight loss goals more quickly, wait a minimum of 4 hours between meals and 12 hours between dinner and breakfast.

How does it work?

To Support Healthy Glucose

By slowing the rate your body turns food into glucose, Balance **effectively limits the amount of insulin needed**. Instead of turning glucose into fat, your body will efficiently use the glucose for energy.*

To Support Healthy Triglycerides and Cholesterol

By stabilizing blood sugar levels, Balance allows the body to turn **free fatty acids and triglycerides into energy** through the process of **lipolysis**.*

Fermentation of fiber in the intestines produces short chain **fatty acids**, inhibiting the synthesis of cholesterol.

To Support Weight Loss Goals

Restores the brains sensitivity to **Leptin**, a hormone produced by fat cells helping to **regulate appetite and metabolism**.*

The **fiber matrix** forms a gel in your small intestines producing a **feeling of fullness** supporting your ability to wait four hours between meals, **encouraging your body to use fat** stores to meet your energy needs.*
